OUR MISSION

Our mission is to create an environment that is supportive and nurturing by providing comprehensive mental health and therapeutic residential treatment to youth affected by a broad range of emotional, behavioral and developmental challenges. Our team of highly trained professional staff offers quality care to youth and their families through multiple treatment approaches. We are committed to helping youth attain their potential for personal growth and success by teaching them to consistently make safe and healthy choices.

Insight is an Intensive Residential Treatment Service program serving 10 adolescent males and females between the ages of 14 and 17.

Excel is an Intensive Residential Treatment Service program serving 10 male and female youth between the ages of 11 and 13.

Kids in Transition (KIT) is a Specialty Bed program serving 12 adolescent males between the age of 13 to 17.

CFG Residentials, LLC provides out of home residential treatment to youth who have experienced trauma and to those who struggle with behavioral, mental health, and emotional challenges. We promote healing experiences with our youth and assist them in mastering new skills.

We help youth and families heal through connection by utilizing the Nurtured Heart approach.

Referrals are made through the New Jersey Children's System of Care and PerformCare.

All three programs provide an intimate setting that fosters individualized treatment for youth that need out of home treatment. We pride ourselves on the intensity and focus of relationship-based treatment.

Through these relationships and treatment, youth learn and exhibit the skills necessary to prepare for a future with their families and in the community.

We are nationally accredited by the Council on Accreditation (COA), which demonstrates the implementation of best practice standards in the field of human services.
