About Us

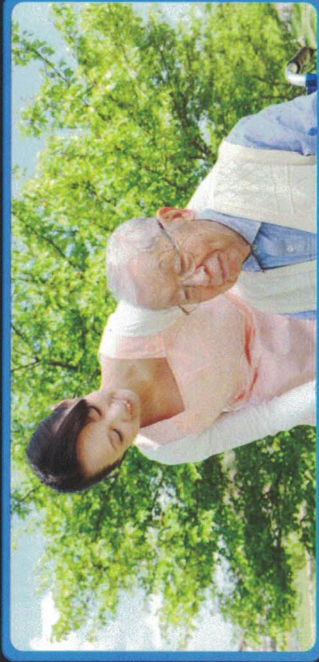

STARS Adult Medical Day Care Center is owned and managed privately serving the Camden Community with adult day services for seniors as well as older adults. Our goal is to help members improve their daily function, increase activity and promote better health. In this way, we hope to delay the onset of chronic illness which may arise from limited mobility or isolation.

A lot of seniors and disabled clients find that socializing with peers their age is helping them improve their disposition. Apart from the social and emotional benefits, STARS Adult Medical Day Care Center also has health care services on site. We have a nurse, therapist and a medical team that visits us periodically to check on the health of our members.

Most importantly, STARS Adult Medical Day Care Center costs so much less compared to nursing home confinement, long-term assisted living and other similar settings. You spend less with adult day care while gaining more out of life.
