

## Autism Care Partners

Autism Care Partners (ACP) operates across the Northeast, improving the standard of care for children and families living with autism and other developmental disabilities. Our goal is to provide comprehensive, outcomes-focused, flexible care to support children and families in reaching their greatest potential. At ACP, we believe the family is really at the heart of care, and we pride ourselves on a “no wrong door” approach to care.

We provide access to evidence-based services for children with autism spectrum disorder. Our team at ACP consists of highly skilled and compassionate professionals who serve families from a variety of cultural and economic backgrounds. We recognize how difficult and overwhelming it can be for a family to navigate the many treatment options available to them, and we have developed an in-house, collaborative approach to care to simplify and bring comfort to that experience. At our center, families will be able to access a host of interdisciplinary clinical services all under one roof.

## Our Fundamentals

- **Outcomes-Focused:** We use behavior analysis and benchmarking to measure outcomes and focus on graduating skill development with consistent parent engagement.
- **Reliable:** Together, we are full partners. From clinical care to family support, ACP seeks to provide the most robust coordinated and effective supports available.
- **Understanding:** Our providers and staff go above and beyond to ensure our clients receive the care they need. We are committed to a supportive, collaborative, and inclusive treatment approach that is rooted in empathy and being kind, fair, and compassionate.
- **Experts in Care:** ACP clinicians are not only experts in treating children with autism spectrum disorder, they have a wide range of experience working with and treating individuals with a variety of developmental disabilities.
- **Optimistic:** We understand that a behavioral diagnosis is often paired with emotional stress or anxiety. ACP's team is here to help - we focus on “now” to get to the future and help individuals achieve their potential. We are committed to remaining optimistic as we work towards a better and brighter future together.

## Our “No Wrong Door” Treatment Philosophy

We meet your family at any stage of your treatment journey with our “no wrong door” approach to accessing services. Our approach integrates diagnostic and interdisciplinary therapy services into a comprehensive treatment plan provided under one roof.

## About Us

Autism Care Partners was launched to achieve a single goal: unifying like-minded professionals to collectively expand and improve the assessment, treatment, and therapy available to individuals with developmental disabilities.

We now operate in communities across the Northeast, offering center-based programs to children and families living with autism and other developmental disabilities. Using clinically proven, outcomes-focused services, Autism Care Partners has developed a unified team that provides high-quality, interdisciplinary therapies to children.

Our expert clinicians will work with your family to develop individualized programming and ensure your loved ones achieve their individual behavioral goals.

## Insurance

Our suite of interdisciplinary clinical service offerings are evidence-based methodologies that empower children diagnosed with autism spectrum disorder to achieve their individual behavioral goals.

We gladly accept most major insurances for all services. We are in network for most major programs for individuals covered through commercial (private/employer-sponsored) plans and public plans (Medicaid and other state-funded programs).

We understand each family's circumstance is unique - our team is ready to assist you with any questions on this process.

## Our Service Offerings\*

### Applied Behavior Analysis

The leading evidence-based behavioral intervention for children with autism, ABA has been proven to improve communication, social, and emotional development while reducing interfering behaviors.

### Social Skills Groups

Social skills groups provide children with an opportunity to interact and engage with their peers at the same, or similar, levels of development.

### Parent and Sibling Training and Support

We provide support for your family as you navigate through a wide range of emotional and psychological challenges that may arise.

### Diagnostic Evaluations

ACP's team of licensed, doctoral-level clinical psychologists provide comprehensive clinical neuropsychological evaluations to diagnose a variety of psychiatric disorders and help children access the right services and supports for them.

### Speech Therapy

ACP's speech therapists focus on language comprehension to help children with unique speech and voice delays.

### Occupational Therapy

ACP's occupational therapists help to improve your child's fine and gross motor skills so they can feel more independent in their activities of daily living.

### Social Work

Our team of clinical social workers provide counseling and psychotherapy to ensure your family's emotional and psychological needs are met.
